

Throughout **November** we will be starting to introduce our new **forest school** area in our extensive nursery gardens. During this month we will be planning exciting age appropriate sessions for the children at Lake View and inviting our families to join us to watch what we will be doing.

Forest School will play a large part of the children's outdoor learning and sessions will be planned so that every child will have the opportunity to attend. Nature can provide an extensive and real context for learning and enables children to explore their world in a fun and exciting way.

Children will be given the chance to develop their creativity learning through practical, outdoor experience and can employ their senses throughout their environment. Children will enjoy developing their communication skills, managing risks and will become inquisitive, confident learners.

All sessions are planned and delivered by a fully qualified Forest School practitioner and are fully risk assessed.

Sophie Jones—Forest School Leader
